

**coordonné**

MEDITERRANEAN ECO PAINTS

Coordonné has 42 years  
of experience in the  
world of interior design  
and now presents its new  
range of eco-friendly  
Mediterranean-inspired  
paints.

# Paints 100% Mediterranean & ecological.

We want to be surrounded by harmonious walls. For this reason, every collection of wall coverings we launch will coordinate with our palette of eco-friendly Coordonné Paints.

Coordonné Paints offer a selection of colours which perfectly match our range of wall coverings. We have included 100 Mediterranean inspired colours. Coordonné is committed to manufacturing long-lasting, environmentally friendly paints.

Better for the environment means better for you. That's why our paints are eco-friendly and carry the European Ecolabel certification.

Designed and manufactured in Spain.

# One color, one attitude. 100 paintings.

# Respect for the environment.

Coordonné is committed to manufacturing long-lasting, environmentally friendly paints.

Coordonné Paints carry the Ecolabel certification and A+ Émissions Dans L'Air Intérieur Certification: the highest quality with the smallest environmental footprint.

These are the criteria with which the European body can grant the Ecolabel certification:

The covering power of the paint and therefore its high quality and performance.

Sustainable manufacturing due to low energy consumption and the use of recycled materials.

Minimum content of (VOCs) and dangerous substances.

The Coordonné Paints range has been ethically manufactured in Spain to the highest quality standards and contributes with BREEAM and LEED certifications.

# Ecolabel gives you confidence

The European (EU) Ecolabel is a voluntary programme, meaning that manufacturers, importers and retailers have the choice to apply for the label for their products.

Coordonné has chosen to have this mark of confidence added to our paints, because quality comes first.

Management of the EU Ecolabel is established by a Regulation of the European Parliament and Council.

To obtain the certification, the complete life cycle of a product is examined. The beginning of the extraction or cultivation of raw materials, the manufacturing and packaging, its distribution, use, and finally the product's disposal or recycling are all taken into account.

The criteria are developed and reviewed in a transparent way by a group of experts and other relevant actors. For more information on the development of the EU Ecolabel criteria, you can visit [their website](#).

# Technical Information

Eco-friendly water-based paint.

High opacity and performance.

Easy to apply: Roller, Brush, Spray.

Odourless and innocuous.

Low VOCs content. High washability.

Resistance to wet rubbing.

Ecolabel certification.

EA + Émissions Dans L'Air Intérieur Certification.

Contributes with BREEAM and LEED certification.

# Finishes

Available in:

750 ml. Coverage 7,5 m<sup>2</sup>.

Number of coats (recommended): 2 coats.

Drying time (20°): To touch, 1-2 h. Recoat, 5-6 h.

Choose between our 2 finishes available in 100 different colors. Ask for our Chart of Colors.

# Inspiration. Chart of Colors.

The main inspiration for our paints comes from our wallpapers, and the quintessential hues of the Mediterranean.

We take great pride in our origins and our DNA. Coordonné is a company based in Barcelona, and this unique enclave is a daily source of inspiration in our work.

Our walls come to life and evoke emotions thanks to our wallpapers and paints.

The colour chart is organised into 10 colour families, each one of them in ascending shades: we start with soft colours and move up to the deepest hue.

These colour families provide us with the following styles: Minimalist (Black & White); Urban (Greys); Solera (Ivorys & Chocolates); Classic (Stones); Creative (Ochres & Mustards); Festive (Reds); Romantics (Pinks); Intellectual (Blues); Adventurous (Sea Greens); Organics (Botanicals).

Choose between our 2 finishes available in 100 different colors.

## Samples.

Once you have selected the colours from our chart and the finish, Matt-Interiors and/or Eggshell, you can request samples from our website. These are real paint samples on paper which you can hang for a few days and look at them in different types of light. This way you can avoid having to do real paint tests on your walls.

It is the same format as with our wallpaper and fabric samples, where you can order samples from our website by visiting the corresponding WALL COVERINGS and/or FABRICS sections.

## Orders.

COORDONNÉ products are widely available in showrooms and through distributors around the world for home delivery.
